

Cafeteria Menu Display

Team ID	LTVIP2025TMID30896
Project Name	Cafeteria Menu Display

Project Design:

Proposed Solution:

Project team shall fill the following information in the proposed solution template

S. No	Parameter	Description
1	Problem statement (problem to be solved)	The Cafeteria Menu Display Portal will enhance the management, publication, and accessibility of daily and weekly cafeteria menus across an organization. Administrators will be able to create, update, and publish menus efficiently, ensuring employees have real-time access to meal options. The portal will streamline the approval process for new menus, automate menu scheduling, and maintain a historical record for future reference.
2	Idea / Solution description	This proposed solution

		provides a flexible and scalable way to manage and display a cafeteria menu within ServiceNow, leveraging its core functionalities for a streamlined user experience and efficient order management.
3	Novelty/Uniqueness	In essence, the cafeteria menu display project is unique because it's a blend of art and science, aimed at optimizing the dining experience while also boosting the cafeteria's bottom line.
4	Social Impact/Customer satisfaction	Customer satisfaction with a cafeteria menu display project can be assessed by evaluating several key aspects, including ease of navigation, visual appeal, and information clarity.
5	Business model (Revenue model)	A cafeteria menu display project can be viewed as a component of a broader business model focused on improving customer experience, streamlining operations, and boosting revenue.
6	Scalability of the Solution	To ensure scalability for a cafeteria menu display project, the solution should be designed to easily accommodate growth in the number of displays, menu items, and integration with other systems.
